Registered – | MSME | NSIC | NIC | Electrical License Delhi Gov. |

We are Manufacturer & Authorized L&T, Havells, Chint Dealer

Power System Engineers & Contractor

- **Automation** is the technology by which a process or procedure is performed with minimal human assistance.
- **Industrial automation** is the use of control systems, such as computers or robots, and information technologies for handling different processes and machineries in an **industry** to replace a human being. It is the second step beyond mechanization in the scope of industrialization.

Our Manufacturing Products

❖ Electrical

- Electrical Control Panel's
- Electrical LT Panel's
- Electrical AMF & PCC Panel's
- Electrical Panels & Distribution Box
- Electrical Turnkey Projects
- Electrical MCC Panel's
- Electrical VFD Panel's
- Electrical PLC Automation Panel's
- Electrical Test Bench for Lab
- Electrical Starter Panel's
- Electrical Copper & GI Earthing

❖ Mechanical

- Stainless Steel Storage Tank
- Mild Steel Storage Tank
- Food Processing Machinery
- Pasta Extruder Machine
- Kurkure Extruder Machine
- Industrial & Screw Conveyor's
- Modular Barcode Scanning Conveyor
- Fryums Automatic Line & Slurry Kettle
- All Types of Cable Tray
- SS & MS Furniture Food & Pharma

Modular Conveyor Barcode Scanning

- These Systems are capable of scanning the smallest of ID Barcodes, 2D Codes which are even damaged or under Plastic Cover at lightning fast conveyor speeds. These Systems can be designed to capture single side. Multiple sides or up to all the sides of the products .
- For in-line high speed Length Width height and Volume Scanning of Cartons, Crates, bags, Parcels etc, its range of high precision Dimension Scanning Tunnels that can integrate with it's conveyor systems seamlessly.
- Our integrated solutions can be equipped with a wide range of Label print and applicators for a fast and accurate shipping system. These Label Print and apply systems can be customized for label size and position as per the application demand.

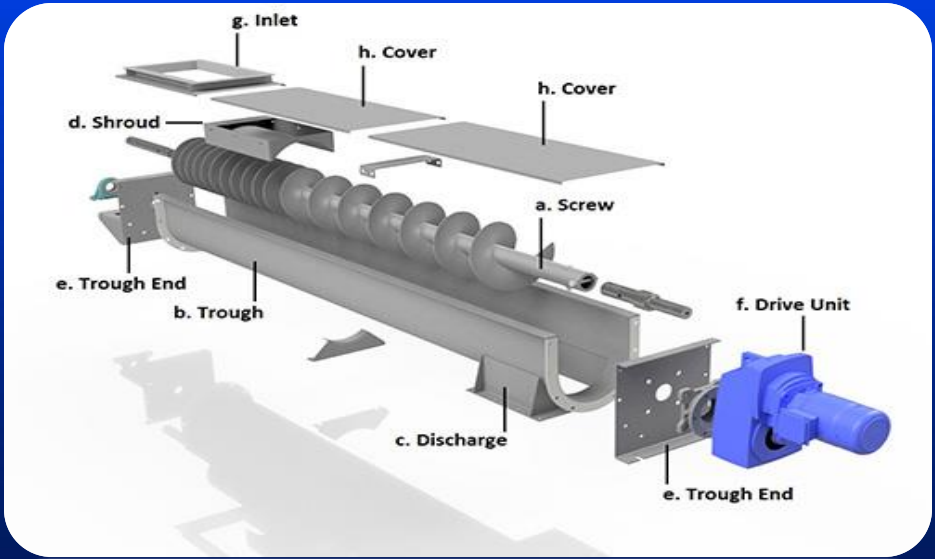

Industrial Belt Conveyor

- We have emerged as a reputed Exporter, Manufacturer, Service Provider & Supplier of Industrial Conveyors, in Greater Noida, Uttar Pradesh, India. Our offered product is known for its spaciousness. Besides, our complete range is highly demanded by the customers, Due to its high working capacity this product highly demanded in the market.

Industrial Screw Conveyor

- We are one of the leading Manufacturers and Suppliers of top grade Screw Conveyor . Made of high grade material including M.S., S.S., engineering plastic or combination, our Screw Conveyor perform hassle free continuously to handle different material. We offer a variety of Screw Conveyor comprising of: Twins Screw Conveyors and Vertical Screw Conveyor.

About Us

- Established in the year 2011 in Greater Noida (Uttar Pradesh, India), we "**Power System Engineers & Contractor**" is a India based company engaged in manufacturing and supplying of Various Type of Machines used in Numerous Industries. High performance corrosion proof, low maintenance, robust construction, reliability, perfect finish and smooth operations are some of the unique features that make our products highly popular in the market. These products are manufactured by our skilled professionals using high quality raw material and advanced technology in accordance with the predefined quality standards. In addition to this, we also provide service like Food Processing Plant Consultant, PNG Pipeline Job Work and SS Fabrication Job Work to our esteemed clients. Acknowledged for their unique features like timely execution, reliability and cost-effectiveness, these services are highly demanded in the market.
- For the manufacturing of these products, we have well-furnished infrastructural unit. This infrastructure is segregated into different units like procurement, manufacturing, quality controlling, research & development, warehousing & packaging and sales & marketing. Our infrastructural unit is well-furnished with all the latest machines and tools that help us to cater the bulk requirement of our clients. In order to ensure the quality, our team of quality experts tests these products on different quality parameters. Keeping in mind the diverse demands of our clients, we provide these products in different specifications. The entire work process is supervised by knowledgeable and experienced professionals.
- With the support of our dexterous team of professionals, we are providing our clients a broad array of products. In our team, we have procurement agents, quality controller, delivery staff and sales & marketing executives. Our skilled professionals manufacture these products using high quality raw material and latest technology in tune with industry defined standards. For our experts, we organize crucial workshop, training sessions and learning programs at regular basis.
